#### BUM-INSPIRED POOLS.

Prominent in the accounts of recent vovages and alleged voyages over Niagara Falls and through the rapids has been the part that should be held responsible for it. alcohol has played. Every fellow, about, had a '' jag on." The story of WALTER CAMPBELL, who yesterday traversed the rapids, shows that his sole fortifications for the task were a cork life-preserver and a generous admodicum of rum. Now that this fact is so plainly set forth, persons inclined to laud and defend the Niagara plungers as men of marvel. lous courage, must relegate the exploits about the Falls to the sphere of drunken folly.

The only question in doubt, however, is whether the insanity of the man who tackles Niagara at any of its stages is natural or inspired by drink. Insane he certainly is. The truest bravery is that which is dominated by caution and saves itself for an emergency where some real benefit to some one is to accrue from its exercise. The passage of Niagara or its rapids out of mere bravado does no good to any living being. It is a prostitution of pluck.

#### WHERE THE DANGER LIES.

There is one phase of the great strike in London which is apt to be of more danger than was the strike itself, apt to foment immeasurable turbulence, and may be bring abou momentous and permanent changes in the social conditions of Great Britain.

It was an example fraught with dire possibilities. It has offered a lesson which the English workingman will not be slow to apprehend.

It is as when the lion learns his strength. Watch with dread, ye of England, for the day when he shall rise up and shake his mane. There is no call for extremes, workmen, and no profit in them. The labor problem is to solve itself gradually, not m a convulsion. The English workingman must use sense in the coming ten years. It may be as crucial a period as that which gave birth to Magna Charta.

#### HASTE IS THE PARENT OF ERROR.

When the news of the murder of ANNIE LECONEY, at Merchantville, N. J., was at first bruited, THE EVENING WORLD Was unwilling to believe that the negro Lingo was guilty of the crime without stronger evidence than that produced. Subsequent investigation has proven the wisdom of withholding judgment in the matter. The dead giris' uncle, CHALKLEY LECONEY, is behind the bars now, charged with the murder, and the case against him grows stronger every hour.

It is not always wise to jump at conclusions whether regarding the fatherhood of a crime or anything else. THE EVENING WORLD hastens to get the news, and supply its readers therewith, but not to bias their judgments thereupon until the case is plain and

#### WELCOME TO THE BABIES.

THE EVENING WORLD'S baby contest is fairly under way, and promises to be as popular as the babies themselves are. Already the photographs of the pretty infants have begun coming, and a bouncing and bright-eyed lot of little ones will be shown before the trial is over.

Come on, proud mothers, with your dimpled darlings. It will be the happiest woman hereabouts who learns that hers has won the prize over all competitors.

Joun L. is formulating "American Prize-Ring Rules," The "Big Un" seems determined to leave his mark as distinctly upon this country, in one way or another, as he left it on KILBAIN, RYAN and the rest. It may be that this prospective convict will, by and by, be leaving marks in the shape of statutes upon the State of Mississippi, which now has a bit the better of him. To be a lawmaker is a great as well as a dangerous thing. Joun has his pride up.
